

## ADM WI22 Verified Dumps

An administrator is planning to use Data loader to mass import new records to a custom object from a new API.

What will the administrator need to do to use the Data loader?

- A. Add a permission set that allows them to import data.
- B. Append their security token at the end of their password to login.**
- C. Use the Data Import Tool to mass import custom object records.
- D. Reset their password and their security token.

2. The IT manager at Universal Containers is doing an audit of the system's security.

How should the administrator provide a summary of org's security health?

- A. Download the last six months of user login data.
- B. Run a Health Check to identify the vulnerabilities**
- C. Turn on Event Monitoring to track user events.
- D. Change the Organization-Wide Defaults to private to restrict visibility.

3. The administrator for AW Computing is working with a user who is having trouble logging in to Salesforce.

What should the administrator do to identify why the user is unable to login?

- A. Check the attempted logins by running the setup audit trail.
- B. Reset the security token for the profile.
- C. Pull the password history to ensure the password policy was followed.
- D. Review the login history for the user.**

4. Universal Containers has private sharing model for Opportunities and uses Opportunity teams. Criteria-based sharing rules are not used. A sales rep at Universal Containers leaves the company and their user record is deactivated. The rep is later rehired in the same role. The administrator activates the old user record. The user is added to same default Opportunity teams but is no longer able to see the same records the user worked on before leaving the company.

A. The records were manually shared with the user.

B. Permission sets were removed when the user was deactivated.

C. The stage of the Opportunity records was changed to closed lost.

D. The record type of the Opportunity records was changed.

5. A user at Northern Trail Outfitters is having trouble logging into Salesforce. The user's login history shows that this person has attempted to log in multiple times and has been locked out of the organization.

Which two ways should the administrator help the user login into Salesforce?

A. Reset password on the user's record detail page.

B. Reset the password policies to allow the user to login.

C. Log in as the user to unlock the user and reset the password.

D. Use the unlock button on the user's record detail page.

6. The administrator at Cloud Kicks deleted a custom field but realized that is it part of the lead conversion process. What should an administrator take into consideration when undeleting the field?

A. The field history will remain deleted.

B. The field mapping needs to be re-mapped.

C. The field needs to be restored in the search settings.

D. The field needs to be re-added to reports.

7. The administrator has created new users for ten new employees at Northern Trail Outfitters.

Why are these users unable to access the account object in the Salesforce org?

A. Users' profile requires permission to the Account object.

B. Organization-wide defaults are set to private.

C. Users' profile requires a sharing rule for Accounts.

D. Users' roles are low on the role hierarchy.

8. Universal Containers wants to prevent its service team from accessing deal records. While

service users are unable to access deal list views, they are able to find deal records via a search.

What option should the administrator adjust to fully restrict access?

- A. Page layouts and field-level security
- B. App permissions and search terms
- C. Permissions and tab visibility
- D. Record settings and search index

9. The Sales manager at Dreamhouse Realty wants the sales users to have a quick way to view and edit the Opportunities in their pipeline expected to close in the next 90 days.

What should an administrator do to accomplish this request?

- A. Make a new Sales dashboard and add a component that shows all opportunities that meet the criteria.
- B. Enable Sales console and show users how to open a tab for each opportunity in the pipeline that meets the requirements.
- C. Create a custom report and schedule the sales users to receive it each day as a reminder to update their opportunities.
- D. Create a list view on the Opportunity object and recommend users switch the view to Kanban to edit by drag and drop.

10. Northern Trail Outfitters(NTO) has deployed my domain. The Chief Officer wants to make sure that all of the Salesforce users log in using the branded login URL. There needs to be a grace period for the user's bookmarks to be updated.

How should the administrator configure the policies in my domain settings?

- A. Set the login policy to require login from <https://nto.my.salesforce.com>
- B. Set the login policy to prevent login from <https://login.salesforce.com>
- C. Set the Redirect policy to Do Not Redirect.
- D. Set the redirect policy to Redirect with a warning to the same page within the domain.

11. Ursa Major Solar has service level agreements (SLA) that are routed to support queues.

Case that meet the 24 hour SLA need to be automatically re-assigned to the next tier queue.

Which feature should be used to fulfil the requirement?

- A. Case assignment rule
- B. Auto-response rule
- C. Einstein Case Routing
- D. Case escalation rule**

12. Which two solutions could an administrator find on the AppExchange to enhance their organization?

Choose 2 answers

- A. Communities
- B. Consultants**
- C. Components**
- D. Customers

13. An administrator needs to create a one-to-many relationship between two objects with limited access to child records.

What type of field should the administrator use?

- A. Roll-up summary
- B. Master-detail field**
- C. Cross object formula
- D. Lookup field

14. Cloud kicks has asked the administrator to test a new screen flow that creates the contacts.

What are two key components of testing the flow?

- A. Use Debug to test the flow in- Flow Builder.**

- B. Test the flow in a sandbox.
- C. Run the flow using it to create contacts.
- D. Set up a flow interview to test the flow.

15. An administrator needs to store the ID of a record type for later use in a flow.

What kind of variable should the administrator use?

- A. Text variable
- B. Record variable
- C. Boolean variable
- D. ID variable

16. Universal Containers (UC) would like to count the number of open cases associated with each Account and update the Account with this value every Friday evening. UC has several hundred open cases at any given time.

What should the administrator use to complete this request?

- A. Use a scheduled flow.
- B. Use a Roll-Up Summary field on Case.
- C. Use a record triggered flow.
- D. Use a scheduled Process Builder.

17. DreamHouse Realty has an approval process. A manager attempts to approve the record but receives an error.

What should an administrator review to troubleshoot this request?

- A. Update the field-level security to view on fields that are updated in the process.
- B. Check if the user in the next approver is inactive or missing.
- C. Receive the page layout to ensure the fields updated in the process are visible.
- D. Add a delegated approver for the next approver in the process.

18. A sales rep at Ursa Major Solar has launched a series of networking events. They are hosting one event per month and want to be able to report on campaign ROI by month and series.

How should the administrator set up the Campaign to simplify reporting?

- A. Add different record types for the monthly event types.
- B. Create individual Campaigns that all have the same name.
- C. Configure campaign Member Statuses to record which event members attended.
- D. Use Campaign Hierarchy where the monthly events roll up to a parent Campaign.

19. The administrator at Ursa Major Solar needs to make sure that unassigned cases from VIP customers get transferred to the appropriate service representative within 5 hours. VIP customers have access to support 24 hours a day.

How should this be configured?

- A. Assignment Rules
- B. Case Queues
- C. Escalation Rules
- D. Business Hours

20. Universal Containers (UC) customers have provided feedback that their support cases are not being responded to quickly enough.

UC wants to send all Unassigned Cases that have been open for more than 2 hours to an urgent Case queue and alert the support manager.

Which feature should an administrator configure to meet this requirement?

- A. Case Scheduled Reports.
- B. Case Dashboard Refreshes.
- C. Case Escalation Rules.
- D. Case Assignment Rules.

21. Which item is available in a Lightning App where visibility is limited to the Salesforce mobile app?

- A. Favorites
- B. Home Page
- C. Today
- D. Utility Bar

22. Northern Trail Outfitters wants emails received from customers to generate cases automatically.

How should the administrator ensure that the emails are sent to the correct queue?

- A. Utilize a flow to identify the correct queue and assign the case.
- B. Use a custom email service to set the owner of the case upon creation.
- C. Create an Escalation Rules to send cases to the correct queue.
- D. Configure Email-to-Case so emails are delivered to the correct queue.

23. Which settings on a profile makes a tab hidden in the All App Launcher or visible in any app, but still allows a user to view records that would normally be found under this tab?

- A. App Permissions
- B. Object Permissions
- C. Org-wide Defaults
- D. Tab Settings

24. At universal Containers, users would like to be able to share Salesforce records with other members of their team, while collaborating around general topics as well.

Which are two considerations for enabling this functionality?

Choose 2 answers

- A. Collaboration groups are created automatically for every department.

B. Object layouts should be configured to include the groups related list.

C. The Add Record action must be configured in the group publisher.

D. An administrator needs to create a group to enable record sharing.

25. The administrator at Cloud Kicks created a new field for tracking returns on their new cloud shoe. A user has submitted case to the administrator indication that the new field is unavailable.

Which two steps should an administrator do to troubleshoot this issue?

Choose 2 answers

A. Ensure that the page layout for the user's profile has been updated.

B. Run the setup audit trail for the organization.

C. Update the organization wide default for the object.

D. Review the field level security of the field for the user profile.

26. Universal Containers (UC) has a queue that is used for managing tasks that need to be worked by the UC customer support team. The same team will now be working some of UC's Cases.

Which two options should the administrator use to help the support team?

Choose 2 answers

A. Configure a flow to assign the cases to the queue.

B. Use assignment rules to set the queue as the owner of the case.

C. Add Case to the existing queue as available object.

D. Create a new queue and add Cases as an available object.

27. Universal Containers has three separate lines of business. Each line has specific fields that must be displayed to users. However, the fields needed by the sales team are different than the fields needed by the service team.

How should the administrator configure this requirement?

- A. Create two record types, each with 3 page layouts.
- B. Create one record type with six Page Layouts.
- C. Create three record types, each with 2 page layouts.
- D. Create six record types, each with 1 page layout.

28. Universal Containers introduced a new product and wants to track all associated cases that get logged. They are looking for an automated solution that would give the product's two lead engineers read/write access to cases that reference the new product.

What should an administrator do to satisfy this requirement?

- A. Create a queue and a criteria-based sharing rule.
- B. Create a predefined case team and an assignment rule.
- C. Create a user-based sharing rule and an ad-hoc case team.
- D. Create an auto response rule and a public group.

29. The administrator for Cloud Kicks needs to give access to a new custom object with custom fields to more than one user.

Which two options should an administrator use to meet this requirement?

- A. Add to manual sharing list.
- B. Assign permission set group to Users.
- C. Create a Permission Set.
- D. Edit organization-wide defaults.

30. At Universal Containers, there is a custom field on the Lead named Product Category Management wants this information to be part of the Opportunity upon lead conversion.

What action should the administrator take to satisfy the request?

- A. Create a custom field on the Opportunity and map the two fields.
- B. Map the lead custom field to the product's product category field.
- C. Create a workflow to update Opportunity fields based on the lead.

D. Configure the product categories picklist field on the product.

31. Universal Containers has enabled Data Protection and Privacy for its org.

Which page layouts will have the individual field available for tracking data privacy information?

A. Individual, User, and Account

B. Contact, Lead, and Person Account

C. Account and User

D. Case and Opportunity

32. The Support Manager wants to send an automatic email to the Case Contact when a case is closed.

Which automation tool can the System Administrator use?

A. Sharing Rule

B. Validation Rule

C. Workflow Rule

D. Case Auto-Response Rule

33. An administrator at AW Computing has been asked to help the Support team with report folders. They want a folder called Support Reports and two folders underneath called Helpdesk and R&D. The Support organization uses public groups for Support Agents, R&D, and Managers. Support agents should be able to run Helpdesk reports but should not be able to view R&D reports. Support managers should be able to view and edit all reports. Which two ways should these folders be shared?

Choose 2 answers

A. Share the R&D folder with Support Managers with Edit Access.

B. Share the Helpdesk folder with Support Agents with View access.

C. Share the Support Reports folder with Support Managers with Edit Access.

D. Share the Support Reports folder with Support Agents with View Access.

34. Northern Trail outfitters wants to encourage employees to choose secure and appropriate passwords for their Salesforce accounts.

Which three password policies should an administrator configure?

Choose 3 answers

A. Maximum invalid login attempts

B. Prohibited password values

C. Require use of Password Manager App

D. Password complexity requirements

E. Number of days until expiration

35. An administrator creates a custom text area field on the Account object and adds it to the service team's page layout. The service team manager loves the addition of this field and wants it to appear in the highlights panel so that the service reps can quickly find it when on the Account page.

How should the administrator accomplish this?

A. In the Account object manager, create a custom compact layout.

B. From the page layout editor, drag the field to the highlights panel.

C. Make the field required and move it to the top of the page.

D. Create a new page layout and a new section titled highlights panel.

36. An administrator at Cloud Kicks is building a flow that needs to search for records that meet certain conditions and store values from those records in variable for use later in the flow.

What flow element should the administrator add?

A. Assignment

B. Get Records

- C. Create Records
- D. Update Records

37. What should an administrator use as an identifier when importing and updating records from a separate financial system?

- A. Auto-Number field?
- B. External ID
- C. Rich text field
- D. Record ID

38. Sales reps at Ursa Major Solar are having difficulty managing deals. The leadership team has asked the administrator to help sales reps prioritize and close more deals.

What should the administrator configure to help with these issues?

- A. Einstein Activity Capture
- B. Einstein Lead Scoring
- C. Einstein Opportunity Scoring
- D. Einstein Search Personalization

39. Northern Trail Outfitters wants to calculate how much revenue has been generated for each of its marketing campaigns.

How should an administrator deliver this information?

- A. Design a standard Campaign report and add the value Won Opportunities in Campaign field.
- B. Perform periodic data job to update campaign records.
- C. Create a roll-up summary field on Opportunity to Campaign.
- D. Add a Total Value Field on campaign and use a workflow rule to update the value when an opportunity is won.

40. Which two actions should an administrator perform with Case escalation rules?

Choose 2 answers

A. Change the Case Priority.

B. Re-open the Case.

C. Re-assign the Case.

D. Send email notifications.

41. An administrator at Cloud Kicks wants to deactivate a User who has left the company.

What are two reasons that would prevent a user from being deactivated?

Choose 2 answers

A. The user is part of a territory hierarchy.

B. The User is in a Custom hierarchy field.

C. The User is assigned in workflow email alert.

D. The User is the highest role in the role hierarchy.

42. Ursa Major Solar has a path on Case. The Company wants to require its users to follow the status values as they are on the path. Agents should be prohibited from preventing the case back to a previous status.

Which Feature Should an administrator use to fulfil this request?

A. Validation rules.

B. Global Value Picklists

C. Predefined field Values.

D. Dependent Picklists.

43. Northern Trail Outfitters has the Case Object set to private. The support manager raised a concern the reps have a broader view of data than expected and can see all cases on their groups dashboards.

What could be causing reps to have inappropriate access to data on dashboards?

- A. Dashboard Filters
- B. Dashboard Subscriptions
- C. Dynamic Dashboards
- D. Public Dashboards.

44. At cloud kicks, sales reps use discounts on the opportunity record to help win sales on particular products. When an opportunity is won, they then have to manually apply the discount up the related opportunity products. The sales manager has asked if there is a way to automate this time-consuming task.

What should the administrator use to deliver this requirement?

- A. Flow Builder
- B. Approval Process
- C. Prebuild Macro
- D. Formula field

45. A team of support users at Cloud Kicks is helping inside sales reps make follow-up calls to prospects that filled out an interest form online. The team currently does not have access to the Lead object.

How should an administrator provide proper access?

- A. Create a new profile
- B. Configure permission sets
- C. Assign a new role.
- D. Set Up Manual Sharing

46. The administrator at cloud kicks has been told that users are unable to add repeating tasks in salesforce.

Which two solutions the administrator use to ensure users are able to do this?

Choose 2 Answers

- A. Enable creation of Recurring Tasks in Activity Settings
- B. Disable shares Activities.
- C. Add create Recurring series of Tasks field on Page Layouts
- D. Turn on Task Notifications service.

47. An administrator at Northern Trail Outfitters is unable to add a new user in salesforce.

What could cause this issue?

- A. The username is already in use another organization.
- B. The email address used for the username has a contact record.
- C. The email used for the username is not a corporate email address.
- D. The username is restricted to a domain specific to my domain.

48. An administrator at Northern Trail Outfitters is unable to add a new user in salesforce.

What could cause this issue?

- A. The Username is not a corporate email address.
- B. The username is less than 80 characters.
- C. The Username is a fake email address.
- D. The Username is already in use.

49. Sales reps at Northern Trail Outfitters have asked for a way to change the Probability field value of their Opportunities.

What should an administrator suggest to meet this request?

- A. Define a new Stage picklist value.
- B. Create a custom field on Opportunity.
- C. Configure Forecasting support.
- D. Make the field editable on page layouts.

50. Which tool should an administrator use to identify and fix potential session vulnerabilities?

A. Organization-Wide Defaults

**B. Security Health Check**

C. Setup Audit Trail

D. Field History Tracking

51. Northern Trail Outfitters wants to initiate expense reports from Salesforce to the external HR system. This process needs to be reviewed by managers and directors.

Which two tools should an administrator configure?

Choose 2 answers

A. Quick Action

**B. Approval Process**

**C. Outbound Message**

D. Email Alert Action

52. The marketing director at Northern Trail Outfitters has requested that the Budget field is populated in order for the Lead Status field to be marked as qualified.

What tool should the administrator use to fulfil this request?

A. Workflow Rule

B. Lead Conversion

**C. Validation Rule**

D. Require Field

53. An administrator has been asked to change the data type of an auto number to a text field.

What should the administrator be aware of before changing the field?

**A. Existing field values will remain unchanged.**

B. Existing field values will be deleted.

- C. Existing Auto Number field to Text is prevented.
- D. Existing field values will be converted.

54. When a Cloud Kicks opportunity closes, the company would like to automatically create a renewal opportunity.

Which two automation tools should an administrator use to accomplish this request?

- A. Flow Builder
- B. Approval Process
- C. Workflow Rule
- D. Process Builder

55. Cloud Kicks wants its reports to show a Fiscal Year that starts on February 1 and has 12 months.

How should the administrator address this requirement?

- A. Set the Fiscal Year to Custom and the duration to 4 quarters.
- B. Set the Fiscal Year to Standard and the starting month as February.
- C. Set the Fiscal Year to Custom and the starting month as February.
- D. Set the Fiscal Year to Standard and the duration to 12 months.

56. Users at DreamHouse Realty are only allowed to see opportunities they own. Leadership wants an enterprise-wide dashboard of all open opportunities in the pipeline so that users can see how the company is performing at any point of time.

How should an administrator create the dashboard without changing any sharing settings?

- A. Add a filter to the dashboard to filter the opportunities by owner role.
- B. Create a dashboard with the running user set as someone who can see all opportunities.
- C. Update the dashboard folder settings to manager for the sales reps role.
- D. Build individual dashboard for profiles that need to see the enterprise results.

57. Cloud Kicks wants to track shoe designs by products. Shoe designs should be unable to be deleted, and there can be multiple designs for one product across various stages.

Which two steps should the administrator configure to meet this requirement?

Choose 2 answers

- A. Create a custom object for shoe designs.
- B. Add a custom master-detail field for shoe designs on the Product object.
- C. Configure a custom lookup field for shoe designs on the Product object.
- D. Use the standard object for designs.

58. Cloud Kicks (CK) Is partnering with a used shoe store and second-hand bicycle emporium. CK has an automated business process it wants to run once a week to count the number of open cases related to an account.

How should the administrator recommend automating this business process?

- A. Configure a scheduled flow in Flow Builder.
- B. Use a process to update the account when It is edited.
- C. Set up a scheduled process in Process Builder.
- D. Create a workflow rule with an outbound message.

59. An administrator at Universal Containers has been asked to prevent users from accessing Salesforce from outside of their network.

What are two considerations for this configuration?

Choose 2 answers

- A. IP address restrictions are set on the profile or globally for the org.
- B. Enforce Login IP Ranges on Every Request must be selected to enforce IP restrictions.
- C. Assign single sign-on to a permission set to allow users to log in when outside the network.
- D. Restrict U2F Security keys on the user's profile to enforce login hours.

60. The administrator at Ursa Major Solar has created a custom report type and built a report for sales operation team. However, none of the user are able to access the report.

Which two options could cause this issue?

Choose 2 Answers

A. The custom report type is in development.

B. The user's profile is missing view access.

C. The org has reached its limit of custom report types.

D. The report is saved in a private folder.

61. Ursa Major Solar has Its business hours set from 9:00 AM to 5:00 PM for the reps that are on Pacific Time. The reps on Eastern Time need business hours set to start 3 hours earlier to cover for support.

How should an administrator solve for this Issue?

A. Adjust the current business hours to accommodate the Eastern Time Zone.

B. Allow the reps to set business hours manually.

C. Create one set of business hours per time zone.

D. Set temporary business hours for each time zone.

62. Cloud Kicks is working on a better way to track its product shipments utilizing Salesforce.

Which field type should an administrator use to capture coordinates?

A. Geofence

B. Geolocation

C. External lookup

D. Custom address

63. An administrator installed a managed package that contains a permission set group. The permission set group that was installed includes Delete access on several objects, and the

administrator needs to prevent users in the permission set group from being able to delete records.

What should the administrator do to control Delete access?

- A. Create a new permission set that has Delete access deselected for the objects.
- B. Edit the profile for the users to remove Delete access from the objects.
- C. Create a new role that prevents Delete permissions from rolling up to the users.
- D. Use a muting permission set with a permission set group to mute selected permissions.

64. Executives at Cloud Kicks have reported that their dashboards are showing inaccurate data.

The administrator has discovered that users have been changing the source reports.

Which two actions should the administrator take to preserve the integrity of the source reports?

Choose 2 answers

- A. Move the dashboard reports to the view-only folder.
- B. Change the dashboard to be a dynamic dashboard.
- C. Create a new report folder with viewer access.
- D. Move the dashboard to the user's private folder.

65. The marketing team at Ursa Major Solar wants to send a personalized email whenever a lead fills out the web-to-lead form on their website. They want to send different messages based on the Lead Industry field value.

What should an administrator configure to meet this requirement?

- A. Use a validation rule to trigger workflow to email the lead.
- B. Create an assignment rule to email the lead.
- C. Configure an auto-response rule to email the lead.
- D. Add a public group and Process Builder to email the lead.

66. The administrator at Ursa Major Solar needs to make sure that unassigned cases from VIP

customers get transferred to the appropriate service representative within 5 hours. VIP

customers have access to support 24 hours a day.

How should this be configured?

- A. Case Queues
- B. Business Hours
- C. Assignment Rules
- D. Escalation Rules

67. AW Computing needs to capture a loss reason in a rich text field when an opportunity is closed lost.

How should an administrator configure this requirement?

- A. Create a validation rule to display an error if stage is closed lost and Loss Reason is blank.
- B. Select the required checkbox next to the Loss Reason field on the page layout.
- C. Check the required checkbox on the Loss Reason field in Object Manager.
- D. Configure a workflow rule to display an error if Loss Reason is blank.

68. A sales rep has left the company and an administrator has been asked to re-assign all their accounts and opportunities to a new sales rep and keep the teams as is.

Which tool should an administrator use to accomplish this?

- A. Dataloader.io
- B. Data Loader
- C. Mass Transfer Tool
- D. Data Import Wizard

69. The administrator at Universal Containers wants to add branding to Salesforce.

Which two considerations should the administrator keep in mind?

Choose 2 answers

A. Only one theme can be active at a time, and a theme applies to the entire org.

B. Chatter external users see the built-in Lightning blue theme only.

C. Up to 150 custom themes can be created, modified, or cloned from the built-in themes.

D. Themes apply to Salesforce Classic and to the Salesforce mobile app.

70. AW Computing would like to improve its Case Lightning record page by including:

- A filter component to display a message in bold font when a case is saved as acritical record type.
- A quick way to update the account status from the case layout.

Which two components should an administrator use to satisfy these requests?

Choose 2 Answers

A. Related List

B. Related Record

C. Record details

D. Rich text

71. Support agent at Cloud Kicks are spending too much time finding resources to solve cases.

The agents need a more efficient way to find documentation and similar cases from the Case page layout.

How should an administrator meet this requirement?

A. Create a custom object to capture popular case resolution.

B. Used an interview flow to capture Case details.

C. Direct users to Global Search to look for similar cases.

D. Configure Knowledge with articles and data categories.

72. When a sales rep clicks a button on an opportunity, a simple discount calculator screen should be launched.

Which automation tool should an administrator use to build this discount calculator screen?

A. Flow Builder

B. Platform Event

C. Process Builder

D. Workflow Rule

73. The administrator at AW Computing wants Account details, related lists, and Chatter feeds to each appear on separate tabs when viewing an Account.

Which type of page should the administrator create?

A. Lightning page component

B. Lightning record page

C. Lightning app page

D. Lightning page tab

74. Cloud Kicks has a custom object called Shipments. The company wants to see all the shipment items from an Account page. When an Account is deleted, the shipments should remain,

What type of relationship should the administrator make between Shipments and Accounts?

A. Accounts should have a lookup to shipments.

B. Shipments should have a lookup to Account.

C. Shipment should have a master detail to Accounts.

D. Account should have a master detail to Shipments.

75. The administrator for Cloud Kicks has created a screen flow to help service reps ask the same set of questions when customers call in with issues. This screen should be visible from cases.

How should the screen flow be distributed?

A. Page Layout

B. Component Filter

**C. Lightning page**

D. Home page

76. Sales users at Universal Containers are reporting that it is taking a long time to edit opportunity records. Normally, the only field they are editing is the Stage field.

Which two options should the administrator recommend to help simplify the process?

Choose 2 answers

**A. Add a Path for stage to the opportunity record page.**

**B. Use a Kanban list view for Opportunity.**

C. Configure an auto launched flow for Opportunity editing.

D. Create a simplified Opportunity page layout.

77. The support manager at Cloud Kicks wants to respond to customers as quickly as possible. They have requested that the response include the top five troubleshooting tips that could help solve the customer's issue.

What should the administrator suggest to meet these requirements?

A. Auto-Response Rules

B. Email Alerts

C. Assignment Rules

**D. Knowledge Articles**

78. Universal Container wants to increase the security of their org by requiring stricter user passwords.

Which two of the following should an administrator configure?

**A. Password complexity requirement**

B. Password different than username

C. Prevent common words

79. Ursa Major Solar is noticing a decrease in deals with a cross-sell opportunity type and want to share all cross-sell opportunities with a team of subject matter experts in their organization. The company has different roles, and the organization-wide default for Opportunity is set to Private.

How should the administrator accomplish this?

A. Change the organization-wide default for Opportunity from Private to Public Read/Write to open up access for the subject matter experts.

B. Add the subject matter experts to a public group and give them access to the records with a criteria-based sharing rule.

C. Create a new role for the subject matter experts and give them access to the records with an owner-based sharing model.

D. Enable territory management, assign the subject matter experts to the same territory, and give them access to the records with manual sharing.

80. Cloud Kicks has a screen flow with two questions on the same screen, but only one is necessary at a time. The administrator has been asked to show only the question that is needed.

How should an administrator complete this?

A. Use a new version of the flow for each scenario.

B. Use a decision element and a new screen to show the proper question.

C. Use conditional visibility to hide the unnecessary question.

D. Use branching in the flow screen to show the proper scenario.

81. Which two objects are customizable the Stage Setup Flow?

Choose 2 answers

A. Leads

B. Campaigns

### C. Opportunities

#### D. Campaign Members

82. What are three settings an administrator should configure to make it easy for approvers to respond to approval requests?

Choose 3 answers

A. Create a flow to automatically approve all records.

B. Enable the organization's email approval response settings.

C. Add the Items to Approve component to the approvers' home page.

D. Specify initial submission actions within the approval process.

E. Update the organization's Chatter settings to allow approvals.

83. Sales and Customer Care at Ursa Major Solar need to see different fields on the Case related list from the Account record. Sales users want to see Case created date and status while Customer Care would like to see owner, status, and contact.

What should the administrator use to achieve this?

A. Compact Layout Editor

B. Search Layout Editor

C. Related Lookup Filters

D. Page Layout Editor

84. Ursa Major Solar offers amazing experience for all of its employees. The employee engagement committee wants to post updates while restricting other employees from posting.

What should the administrator create to meet this request?

A. Chatter Broadcast Group

B. Chatter Unlisted Group

C. Chatter Stream

D. Chatter Recommendations

85. What are two considerations an administrator should keep in mind when working with Salesforce objects?

Choose 2 answers

A. Standard objects are included with Salesforce.

B. A new standard object can be created.

C. Only standard objects support master-detail relationships.

D. Custom and standard objects have standard fields.

86. The administrator at Ursa Major Solar has been asked to change the work Item and Project custom object relationship from a master-detail to a lookup.

Which scenario could prevent the administrator from fulfilling this requirement?

Which scenario could prevent the administrator from fulfilling this requirement?

A. The lookup field is required for saving records.

B. The lookup field in all the records contains a value.

C. Roll-up summary fields exist on the master object.

D. A junction object is required to support the lookup.

87. Users at Cloud Kicks are reporting different options when updating a custom picklist on the Opportunity object based on the kind of opportunity.

Where should an administrator update the option in the picklist?

A. Fields and relationships

B. Record type

C. Related lookup filters

D. Picklist value sets

88. Northern Trail Outfitters has a custom quick action on Account that creates a new Case.

How should an administrator make the quick action available on the Salesforce mobile app?

- A. Create a custom Lightning App with the action.
- B. Include the action in the Salesforce Mobile Navigation menu.
- C. Add the Salesforce Mobile and Lightning Experience action to the page layout.
- D. Modify compact Case page layout to include the action.

89. The administrator at AW Computing wants to send off client welcome tasks and a welcome email to the primary contact automatically when an opportunity is closed won.

What automation tool best accomplish this?

- A. Approval Process
- B. Validation Rule
- C. Outbound Message
- D. Process Builder

90. A user at Universal Containers left the company. The administrator needs to create a new user for their replacement, but they have assigned all available user licenses.

What should the administrator do to free up a user license for the new user?

- A. Change the former user's record to the new user.
- B. Deactivate the former employees user record.
- C. Freeze the former employee's user record.
- D. Delete the former employee's user record.

91. Northern Trail Outfitters is using one profile for all of its marketing users, providing readonly access to the Campaign object. A few marketing users now require comprehensive edit access on Campaigns.

How should an administrator fulfil this request?

- A. Permission sets
- B. Organization-wide defaults

C. Marketing user checkbox

D. Field level security

92. Universal Containers has two sales teams, sales team A and sales team B. Each team has their own role in the role hierarchy. Both roles are subordinates of the same Manager role.

How should the administrator share records owned by sales team A with sales team B?

A. Criteria-based sharing

B. Use manual sharing

C. Owner-based sharing

D. Hierarchical sharing

93. The administrator at Cloud Kicks updated the custom object Event to include a lookup field to the primary contact for the event. When running an event report, they want to reference fields from the associated contact record.

What should the administrator do to pull contact fields into the custom report?

A. Create a new report type with Event as the primary object and Contact as a related object.

B. Use a dashboard with filters to show Event and contact data as requested.

C. Configure formula fields on Event to populate contact information.

D. Edit the custom Event report type and add fields related via lookup.

94. Cloud Kicks has created a screen flow for their sales team to use when they add new leads.

The screen flow collect name, email, and shoe preference.

Which two things should the administrator do to display the screen flow?

Choose 2 answers

A. Create a tab and add the screen flow to the page.

B. Use a flow element and add the screen flow to the record page.

C. Add the flow in the utility bar of the console

D. Install an app from the AppExchange.

95. Cloud Kicks want to have consistency when communicating with customers on cases.

The company has requested messages to be sent in an email channel with categories to help search for the proper message.

Which solution should an administrator suggest to meet this requirement?

A. Prebuilt Flow Templates

B. Prebuilt Quick Texts

C. Prebuilt Email Templates

D. Prebuilt Auto-Responses

96. DreamHouse Realty (DHR) wants a templated process with a mortgage calculator that generated leads for loans. DHR needs to complete the project within 30 days and has maxed out its budget for the year.

Which AppExchange item should help the administrator to meet the request?

A. Lightning Data

B. Lightning Community

C. Flow Solutions

D. Bolt Solutions

97. Sales managers would like to know what could be implemented to surface important values based on the stage of the opportunity.

Which tool should an administrator use to meet the requirement?

A. Workflow rules

B. Path key fields

C. Dynamic forms

D. Opportunity processes

98. Aw computing wants to prevent user from updating the Account Annual Revenue field to be a negative value or an amount more than \$100 billion.

How should an administrator accomplish this request?

A. Create a validation rule that displays an error if Account revenue is below 0 or greater than 100 billion.

B. Build a scheduled report displaying Account with Account revenue that is negative or greater than 100 billion.

C. Enable the Account Revenue limits in setup, with 0 as minimum and 100 billion as maximum.

D. Make the Account Revenue field required on the page layout.

99. An administrator at Universal Containers is reviewing current security settings in the company's Salesforce org.

What Should the administrator do to prevent unauthorized access to Salesforce?

A. Customize organization wide default.

B. Disable TLS requirements for sessions.

C. Enable caching and autocomplete on login page.

D. Enable multi factor authentication.

100. Once an opportunity reaches the negotiation stage at cloud kicks, The Amount fields becomes required for sales users. Sales managers need to be able to move opportunities into this stage without knowing the amount.

How should the administrator require this field during the negotiation stage for sales users but allow their managers to make changes?

A. Configure a validation rule to meet the criteria.

B. Assign the administrator profile to the managers.

C. Make the field required for all users.

D. Create to formula field to fill in the field for managers.

101. Sales reps at Cloud Kicks want to be notified when they have a high likelihood of winning an opportunity over \$1,000,000.

Which feature meets this requirement?

A. Performance chart.

B. Key Deals Activity.

C. Timeline.

D. Big Deal Alerts.

102. Cloud Kicks has the organization-wide defaults for Opportunity set to Private.

Which two features should the administrator use to open up access to opportunity records for sales users working on collaborative deals?

Choose 2 answers

A. Profiles

B. Sharing rules

C. Sharing set

D. Role hierarchy

103. When users log in to Salesforce via the user interface, which two settings does the system check for authentication?

Choose 2 answers

A. The user's Two-Factor Authentication for API Logins permission.

B. The role IP address restrictions.

C. The user's Two-Factor Authentication for User Interface Logins permission.

D. The user's profile login hours restrictions.

104. Which three aspects of standard fields should an administrator customize?

Choose 3 answers

A. Picklist Values

B. Help Text

C. Field history tracking

D. Decimal Places

E. Field name

105. The administrator at universal containers has a screen flow that helps users create new leads.

When lead source is "Search Engine", the administrator needs to require the user to choose a specific search engine from a picklist. If lead source is not "Search Engine", this picklist should be hidden.

How should the administrator complete this requirement?

A. Create a picklist for specific search engine and set conditional visibility so that is only shown when lead source is "Search Engine".

B. Use an assignment element, one for when lead source is "Search Engine" and one for everything else.

C. Assign a decision element to direct the user to a second screen to hold specific search engine only when a lead source is "Search Engine".

D. Configure a picklist for specific search engine, and use a validation rule to conditionally show only when lead source is "Search Engine"

106. The administrator at Ursa Major Solar has Created a new record type for customer warranty cases which two assignments should the administrator use to display the new record type to users?

Choose 2 answers

A. Profile Assignment.

B. Page layout Assignment.

C. App Manager Assignment.

#### D. Role Assignment

107. The VP of sales at Dreamhouse Realty has requested a dashboard to visualize enterprise sales across the different teams. The key place of data is the total of all sales for the year and the progress to the enterprise sales goal.

What dashboard component will effectively show this number and the proximity to the total goal as a single value?

- A. Donut
- B. Table
- C. Stacked Bar
- D. Gauge

108. Cloud Kicks executives have noticed the opportunity Expected revenue Field displays incorrect values.

How Should the administrator correct this?

- A. Modify the closed won value associated with the stage.
- B. Change the probability associated with the stage.
- C. Update the expected revenue associated with the stage.
- D. Adjust the forecast category associated with the stage.

109. Northern Trail Outfitters wants to know the average stage duration for all closed Opportunities.

How should an administrator support this request?

- A. Use process builder to capture the daily average on each opportunity.
- B. Add Formula Fields to track Stages on each Opportunity.
- C. Run the Opportunity Stage Duration report.
- D. Refresh weekly reporting snapshots for Closed Opportunities.

110. The sales manager at Cloud Kicks wants to set up a business process where opportunity discounts over 30% need to be approved by the VP of sales. Any discounts above 10% need to be approved by the user's manager. The administrator has been tasked with creating an approval process.

Which are two considerations the administrator needs to review before setting up this approval process?

Choose 2 answers

A. Allow the submitter choose the approver manually.

B. Populate the Manager standard field on the sales users' User Detail page.

C. Configure two separate approval processes.

D. Create a custom Discount field on the opportunity to capture the discount amount.

111. The VP of Sales at Cloud Kicks is receiving an error message that prevents them from saving an Opportunity. The administrator attempted the same edit without receiving an error.

How can the administrator validate the error the user is receiving?

A. Edit the page layout.

B. View the setup audit trail.

C. Log in as the user.

D. Review the sharing model

112. An administrator is on a tight deadline to create dashboards for the sales and marketing teams at AW Computing.

What should the administrator do to meet the deadline without increasing the budget?

A. Hire a consultant to build the custom dashboards.

B. Build the dashboards manually to meet the deadline.

C. Train someone on the sales and marketing teams to build dashboards.

D. Check the AppExchange for a prebuilt solution that can be easily customized.

113. The events manager at dream house realty has a hot lead from a successful open house that needs to become a contact with an associated opportunity.

How should this be accomplished from the campaign keeping the associated campaign member history?

A. Delete the lead and create a new contact and opportunity.

B. Clone the lead and convert the cloned record to a contact.

C. Convert the lead from the campaign member detail page.

D. Add a contact from a campaign member detail page.

114. Northern Trail outfitters has hired interns to enter Leads into Salesforce and has requested a way to identify these new records from existing Leads.

What approach should an administrator take to meet this requirement?

A. Set up Web-to-Lead form the interns use.

B. Define a record type and assign it to the interns.

C. Create a separate Lead Lightning App.

D. Update the active Lead Assignment Rules.

115. An administrator has been asked to update a flow that was created as part of a recent update. When the administrator opens the flow for editing, the Flow toolbox offers only four elements: Assignment, Decision, Get Records, and Loop.

What would cause this?

A. The flow is a screen flow.

B. The version of the flow is inactive.

C. The flow is a before save flow.

D. The version of the flow is activated.

116. An administrator wants to create a form in Salesforce for users to fill out when they lose a client.

Which automation tool supports creating a wizard to accomplish this goal?

- A. Process Builder
- B. Approval Process
- C. Outbound Message
- D. Flow Builder

117. The Client services and customer support teams share the same profile but have different permission sets. The Custom Object Retention related list needs to be restricted to the client services team on the Lightning record page layout.

What should the administrator use to fulfil this request?

- A. Sharing settings
- B. Page Layout Assignment
- C. Component Visibility
- D. Record Type Assignment

118. The VP of sales at Universal Containers wants to prevent members of the sales team from changing an opportunity to a date in the past.

What should an administrator configure to meet this requirement?

- A. Assignment Rule
- B. Validation Rule
- C. Field-Level Security
- D. Approval Process

119. Northern Trail Outfitters wants to track ROI for contacts that are key stakeholders for opportunities. The VP of Sales requested that this information be accessible on the opportunity and available for reporting.

Which two options should the administrator configure to meet these requirements?

Choose 2 answers

- A. Customize Campaign Member Role.
- B. Add the Campaign Member related list to the Opportunity page layout.
- C. Customize Campaign Role.
- D. Customize Opportunity Contact Role.
- E. Add the Opportunity Contact Role related list to the Opportunity page layout.

120. The administrator at Cloud Kicks has a Custom picklist field on Lead, Which is missing on the Contact when leads are converted.

Which two items should the administrator do to make sure these values are populated?

Choose 2 answers

- A. Create a custom picklist field on Contact.
- B. Update the picklist value with a validation rule.
- C. Map the picklist field on the Lead to the Contact.
- D. Set the picklist field to be required on the Lead Object.

121. Universal Containers is trying to improve the user experience when searching for the right status on a case. The company currently has one support process that is used for all record types on cases. The support process has 10 status values. Service reps say they never need more than five depending on what kind of case they are working on.

How should the administrator improve on the current implementation?

- A. Reduce the number of case status values to five.
- B. Create a Screen Flow that shows only the correct values for status and surface the flow in the utility bar of the console.
- C. Review which status choices are needed for each record type and create support processes for each that is necessary.
- D. Edit the status choices directly on the record type.

122. Users have noticed that when they click on a report in a dashboard to view the report details, the values in the report are different from the values displayed on the dashboard.

What are the two reasons this is likely to occur?

Choose 2 answers

A. The report needs to be refreshed.

B. The dashboard needs to be refreshed.

C. The current user does not have access to the report folder.

D. The running dashboard user and viewer have different permissions.

123. The marketing team wants a new picklist value added to the Campaign Member Status field for the upsell promotional campaign.

Which two solutions should the administrator use to modify the picklist field values?

Choose 2 answers

A. Add the Campaign Member Statuses related list to the Page Layout.

B. Edit the picklist values for the Campaign Status in object Manager.

C. Mass modify the Campaign Member Statuses related list.

D. Modify the picklist value on the Campaign Member Statuses related list.

124. Ursa Solar Major is evaluating Salesforce for its service team and would like to know what objects were available out of the box.

Which three of the standard objects are available to an administrator considering a support use case?

Choose 3 answers

A. Contract

B. Case

C. Ticket

D. Request

E. Account

125. The administrator at Cloud Kicks has been asked to replace two old workflow rules that are doing simple field updates when a lead is created to improve processing time.

What tool should the administrator use to replace the workflow rules?

A. Quick Action Flow

**B. Before Save Flow**

C. Scheduled Flow

D. Screen Flow

126. Ursa Major Solar uses Opportunity to track sales of solar energy products. The company has two separate sales teams that focus on different energy markets. The Services team also wants to use Opportunity to track installation. All three teams will need to use different fields and stages.

How should the administrator configure this requirement?

A. Create three sales processes. Create three record types and one page layout.

B. Create one sales process. Create three record types and three page layouts.

**C. Create three sales processes. Create three record types and three page layouts.**

D. Create one sales process. Create one record type and three page layouts.

127. The service manager at Ursa Major Solar wants to let customers know that they have received their cases via email and their websites. Medium-priority and high-priority cases should receive different email notifications than low-priority cases. The administrator has created three email templates for this purpose.

How should an administrator configure this requirement?

A. Include three assignment rules that fire when cases are created. Add a filter for case priority. Select the appropriate email template for each rule.

B. Add three auto-response rules. Configure one rule entry criteria for each rule and set a filter for case priority. Select the appropriate email template for each rule entry.

C. Configure one workflow rule that fires when cases are created. Add a filter for case priority. Select the appropriate email template for the rule.

D. Create one auto-response rule. Configure three rule entry criteria and set a filter for case priority. Select the appropriate email template for each rule entry.

128. Northern Trail Outfitters has two different sales processes: one for business opportunities with four stages and one for partner opportunities with eight stages. Both processes will vary in page layouts and picklist value options.

What should an administrator configure to meet these requirements?

A. Validation rules that ensure that users are entering accurate sales stage information.

B. Different page layouts that control the picklist values for the opportunity types.

C. Public groups to limit record types and sales processes for opportunities.

D. Separate record types and Sales processes for the different types of opportunities.

129. Cloud Kicks wants to allow customers to create their own cases while visiting its public homepage.

What should the administrator recommend?

A. SMS Response

B. Web-to-Case

C. Email-to-Case

D. Omni-Channel

130. An administrator at Universal Containers needs a simple way to trigger an alert to the director of sales when opportunities reach an amount of \$500,000.

What should the administrator configure to meet this requirement?

A. Set up Big Deal Alerts for the amount.

B. Enable Opportunity Update Reminders

C. Opportunity warning in Kanban View.

D. Key Deals component on the homepage.

131. Cloud Kicks wants users to only be able to choose Opportunity stage closed won if the Lead source has been selected.

How should the administrator accomplish this goal?

A. Make Lead Source a dependent picklist to the Opportunity stage field.

B. Configure a validation rule requiring Lead Source when the stage is set to closed won.

C. Change the Opportunity stage field to read only on the page layout.

D. Modify the Opportunity stage a dependent picklist to the Lead source field.

132. Ursa Major Solar wants to automatically notify a manager about any cases awaiting a response from an agent for more than 2 hours after case creation.

Which feature should an administrator use to fulfil this requirement?

A. Assignment Rule

B. Case Escalation Rule

C. Omni-Channel Supervisor

D. Formula Field

133. A sales rep has a list of 300 accounts with contacts that they want to load at one time.

Which tool should the administrator utilize to import the records to salesforce?

A. Dataloader.io

B. Data Loader

C. Manual Import

D. Data Import Wizard

134. An administrator created a record trigger flow to update contacts.

How should the administrator reference the values of the active record the flow is running

on?

- A. Use the {!Contact.Id} global variable.
- B. Use the {!Account.Id} record variable.
- C. Use the \$Record global variable.
- D. Use the Get Records element to find the Id.

135. An administrator gets a rush request from Human Resources to remove a user's access to Salesforce Immediately. The user is part of a hierarchy field called Direct Manager.

What should the administrator do to fulfil the request?

- A. Freeze the user to prevent them from logging in while removing them from being referenced in the Direct Manager field.
- B. Deactivate the user and delete any records where they are referenced in the Direct Manager field.
- C. Change the user's profile to read-only while removing them from being referenced in the Direct Manager Field.
- D. Delete the user and leave all records where they referenced in the Direct Manager Field without changes.

136. AW Computing (AWC) occasionally works with independent contractors, who the company stores as Contacts in Salesforce. Contractors often change agencies, and AWC wants to maintain the historical accuracy of the record.

What should AWC use to track Contacts?

- A. Use a partner community to track the Contacts.
- B. Create a new Contact record for each agency.
- C. Create a Junction object to track many-to-many relationship.
- D. Enable Contacts to multiple Accounts.

137. Which two actions should an administrator perform with Case escalation rules?

Choose 2 answers

A. Re-open the Case.

B. Send email notifications.

C. Change the Case Priority.

D. Re-assign the Case.

138. The Sales director at Cloud Kicks wants to be able to predict upcoming revenue in the next several fiscal quarters so they can set goals and benchmark how reps are performing.

Which two features should the administrator configure?

Choose 2 answers

A. Sales Quotes

B. Opportunity List View

C. Forecasting

D. Opportunity Stages

139. Universal Containers requires a different Lightning page to be displayed when

Accounts are viewed in the Sales Console and in the Service Console.

How should an administrator meet this requirement?

A. Update page layout assignments.

B. Define multiple record types.

C. Assign Lightning pages as app default.

D. Create different user profiles.

140. An administrator at Cloud Kicks has a flow in production that is supposed to create new records. However, no new records are being created.

What could the issue be?

A. The flow is read only.

B. The flow is inactive.

- C. The flow URL is deactivated.
- D. The flow trigger is missing.

141. What are three characteristics of a master-detail relationship?

Choose 3 answers

- A. The master object can be a standard or custom object.
- B. Permissions for the detail record are set independently of the master.
- C. Each object can have up to five master-detail relationships.
- D. Roll-up summaries are supported in master-detail relationships.
- E. The owner field on the detail records is the owner of the master record.

142. The administrator at Cloud Kicks has created an approval process for time off requests.

Which two automated actions are available to be added as part of the approval process?

Choose 2 answers

- A. Field Update
- B. Chatter Post
- C. Auto launched Flow
- D. Email Alert

143. Which two capabilities are considerations when marking a field as required in Object Manager?

Choose 2 answers

- A. The field is not required to save records via the API on that object.
- B. The field is universally required to save a record on that object.
- C. The field is added to every page layout on that object.
- D. The field is optional when saving records via web-to-lead and web-to-case.

144. Universal Containers requires that when an Opportunity is closed won, all other open opportunities on the same account must be marked as closed lost.

Which automation solution should an administrator use to implement this request?

A. Quick Action

B. Workflow Rule

C. Flow Builder

D. Outbound Message

145. Cloud Kicks wants a report to categorize accounts into small, medium, and large based on the dollar value found in the Contract Value Field.

What feature should an administrator use to meet this request?

A. Detail Column

B. Bucket Column

C. Group Rows

D. Filter Logic

146. An administrator has assigned a permission set group with the two-factor authentication for User Interface Logins permissions and the two-factor authentication for API Logins permission to a group of users.

Which two prompts will happen when one of the users attempts to log in to Data Loader?

Choose 2 answers

A. Users need to download and install an authenticator app on their mobile device.

B. Users need to enter a verification code from email or SMS, whichever has higher priority.

C. Users need to connect an authenticator app to their Salesforce account.

D. Users need to get a security token from a trusted network using Reset My Security Token.

147. Cloud Kicks need to be able to show different picklist values for sales and marketing users.

Which two options will meet this requirement?

Choose 2 answers

- A. One page layout, two record types, one picklist
- B. Two page layouts, one record type, two picklists
- C. Two permission sets, one record type, one picklist
- D. One record type, two profiles, one picklist

148. Cloud Kicks has decided to delete a custom field.

What will happen to the data in the field when it is deleted?

- A. The data in the field is stored for 20 days.
- B. The data is permanently deleted.
- C. The data associated with the field is required.
- D. The data is restorable from the recycle bin.

149. AW Computing has six sales teams in a region. These teams always consists of the same account manager, engineer, and assistant.

What should the administrator configure to make it easier for teams to collaborate with the same customer?

- A. Enable and configure standard opportunity teams with splits.
- B. Enable account teams and show the users how to set up a default account team.
- C. Create a queue for each team and assign account ownership to the queue.
- D. Propose the users manually share all their accounts with their teammates.

150. A user at Cloud Kicks is having issues logging in to Salesforce. The user asks the administrator to reset their password.

Which two options should the administrator consider when resetting the user's password?

Choose 2 answers

- A. Resetting the password will change the user's password policy.
- B. Single sign-on users can reset their own passwords using the forgot password link.
- C. Resetting a locked-out user's password automatically unlocks the user's account.
- D. After resetting a password, the user may be required to activate their device to successfully log in to Salesforce.

151. Northern Trail Outfitters has requested that when the Referral Date field is updated on the custom object Referral Source, the parent object Referral also needs to be updated.

Which automation solution should an administrator use to meet this request?

- A. Lightning Web Component
- B. Approval Process
- C. Workflow Field Update
- D. Process Builder

152. The administrator at DreamHouse Realty added an email quick action to the Case page layout and is unable to see the action on the case feed.

Which feature must be enabled to ensure the quick action will be displayed as expected?

- A. Email Notifications
- B. Email-to-Case
- C. Email Alerts
- D. Email Templates

153. An administrator has reviewed an upcoming critical update.

How should the administrator proceed with activation of the critical update?

- A. Activate the critical update in a sandbox.
- B. Allow the critical update to auto-activate.
- C. Activate the critical update in production.

D. Allow the critical update to auto-activate in a sandbox.

154. DreamHouse Realty regularly processes customer requests for warranty work and would like to offer customers a self-serve option to generate cases.

Which two solutions should an administrator use to meet this request?

Choose 2 answers

A. Web-to-Case

B. Case Escalation

C. Case Queues

D. Email-to-Case

155. Dreamhouse realty wants to offer a form on its experience cloud site where inspectors will submit findings from a property inspection.

Which feature should an administrator place on the page to fulfil this requirement?

A. Related List

B. Autolaunched Flow

C. Record Detail

D. Screen Flow

156. An administrator at Ursa Major Solar needs to send information to an external accounting system whenever an opportunity closes.

What workflow action should the administrator use to accomplish this?

A. Assign Task

B. Outbound Message

C. Create Record

D. Custom Notification

157. An Administrator wants to trigger a follow-up task for the opportunity owner when they close an opportunity as won and another task after 60 days to check in with the customer.

Which two automation tools should the administrator use?

Choose 2 answers

A. Process Builder

B. Workflow Rule

C. Field Update

D. Outbound Message

158. An administrator supporting a global team of salesforce users has been asked to configure company settings

Choose 2 options

A. Currency Locale

B. Default Language

C. Password Policy

D. Login Hours

159. Ursa Major Solar wants to know which of its marketing efforts are helping the team win Opportunities.

What should an administrator configure to provide these insights?

A. Campaign Hierarchy

B. Campaign Influence

C. Map Custom Lead Fields

D. List Email Activities

160. Ursa Major Solar uses two different page layouts for Account records. One page layout reflects the fields related to customer accounts and another page layout includes fields for

partner accounts. The administrator has assigned the customer account page layout to sales and support users and the partner account layout to the partner management team.

What should the administrator configure to meet this requirement?

- A. Use a public group and a criteria-based sharing rule to share customer accounts with the partner team.
- B. Add members of the partner management team to the default Account team for the customer accounts.
- C. Grant create, read, edit, and delete access to customer accounts on the partner team profile.
- D. Create one record type for customer accounts and one record type for partner accounts.

161. User at Cloud Kicks want to see information more useful for their role on the Case page.

How should an administrator make the pages more dynamic and easier to use?

- A. Add Component visibility filters to the Components.
- B. Remove fields from the record details component.
- C. Delete the extra component from the page.
- D. Include more tab components with filters.

162. An administrator at Cloud Kicks needs to export a file of closed won opportunities from the last 90days. The file should include the Opportunity Name, ID, Close Date, and Amount.

How should the administrator export this file?

- A. Data Export Wizard.
- B. Data Import Wizard.
- C. Data Export Wizard.
- D. Data Loader.

163. Sales reps miss key fields when filling out on opportunity record through the process.

Reps need to move forward Win unable to enter previous stage.

Which three options should the administrator use to address this need?

Choose Three answers

A. Enable guided selling.

B. Use Validation Rules.

C. Configure Opportunity Path.

D. Use Flow to mark fields required.

E. Mark fields required on the page layout.

164. Cloud Kicks (CK) has new administrator who is asked to put together a memo detailing salesforce uses to budget for upcoming license purchases.

Where Should the administrator go to find out what type of licenses CK Has purchased and how many are available.
